

Health Fund  
Extras Manager

## **Re: Kinesiology Rebates**

Dear Sir/Madam,

It has come to my attention that your fund does not cover Kinesiology as part of your Extras tables.

I would like to advise you that I am a consumer of Kinesiology services.

When I am deciding to continue or change my health fund membership, coverage for kinesiology is an important part of my decision making.

I would encourage you to consider the option of including Kinesiology as part of your recognised benefits as it has such important preventative health benefits for your members.

If you need any further information, I would encourage you to contact the Australian Kinesiology Association for more information on how this discipline can help your members and improve your bottom line. They can be contacted via the avenues below.
